

Module 1: Hands-On: Setting up Azure PowerShell

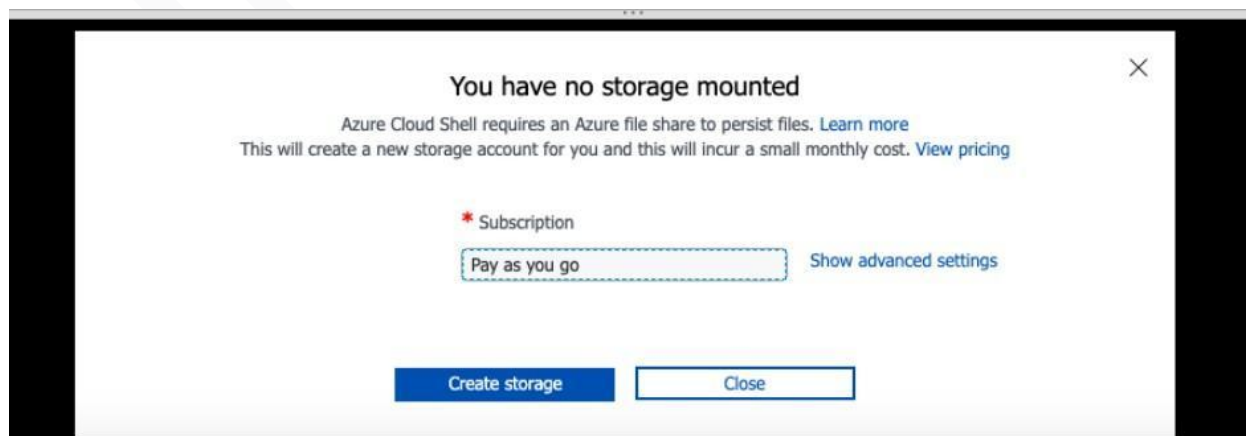

Step 1: Go to <https://portal.azure.com> and click on the cloud shell icon on the taskbar

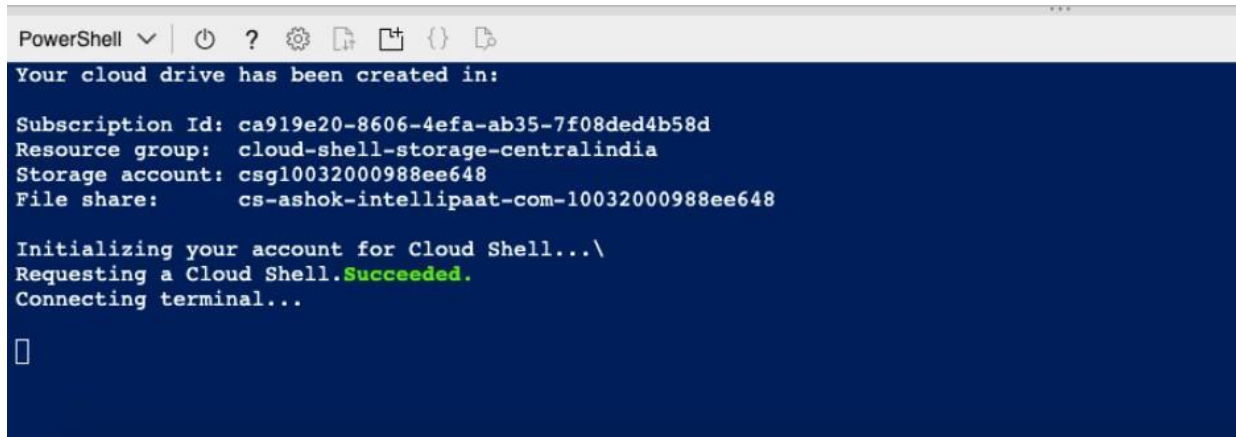

Step 2: A 'Welcome to Azure Cloud Shell' message will pop up. Select PowerShell

Step 3: It will ask you to set up a new storage account for the PowerShell. Select your Subscription name and click on 'Create storage'

Step 4: The shell will start connecting

```
PowerShell | [?] [Settings] [Clipboard] [Terminal] [File Explorer] [Help]
Your cloud drive has been created in:

Subscription Id: ca919e20-8606-4efa-ab35-7f08ded4b58d
Resource group: cloud-shell-storage-centralindia
Storage account: csg10032000988ee648
File share:      cs-ashok-intellipaat-com-10032000988ee648

Initializing your account for Cloud Shell...\
Requesting a Cloud Shell.Succeeded.
